3. The teachers who scored in between 60 and 70% were counselled and cautioned

Best practices:

1. Title of the practice: “GREEN CAMPUS –CLEAN CAMPUS”

Committee Chairman: Principal, SSCASC, TUMKUR

Coordinator: Prof. K.Siddappa, Asso. Prof. & HOD of Botany

Members: Faculty of Botany, Bio-Technology & Zoology and Students

GOAL: To create environmental awareness among students

AIM: To provide an excellent ambience for learning and to preserve eco balance

OBJECTIVES: To sensitise students about the use of trees and plants & ecosystem

THE CONTEXT: Our College has a very clean, green and beautiful campus providing an excellent ambience for learning. The entire campus has landscaping with green grass, ornamental plants, and shady trees making the campus very green and beautiful. The college is very proud of this green and pollution-free ambience which has been conducive to a good educational ambience. The Forum of life science initiated the mission ‘Green campus – Clean Campus’ under the leadership of Prof . K.Siddappa, HOD of Botany . All the faculty members of Botany , Biotechnology ,Zoology and the students are actively participating in planting the saplings in the campus and in around the City. The saplings were provided by the Department of Forest, Tumkur Division.

PRACTICE: Extensive water-harvesting activity has been undertaken at various parts of the campus, resulting in very high ground-water levels. In addition to this each tree is adopted by a student, during the study period she /he have to look after the particular tree or plant in the campus. We are also adopted a new method for watering the plant which is called as “Bottle feeding” for this we are applying for patent

Use of in-organic fertilizers has been dispensed with and organic farming is being adopted in the campus. The college has a compost pit where we make organic manure. Future we are planning for vermiculture in the campus. The use of plastic bag is banned in the campus.

Now-a-days due to the ecological imbalances the human race is facing the hazards of environmental degradation. Urbanization, felling of trees, emission of green house gases have threatened the future of human civilization. So this ‘Green Campus Clean Campus’ started by the Faculty and the students of our college may inspire more people which is the need of the hour.

Evidence of Success: 60% success in the implementation of green campus clean campus

Problems encountered and resources required: Lack of awareness among people and protecting trees outside the campus is very expensive in addition to these cattle and pests destroy the saplings,

GOAL: Adolescence is an important stage in the life of girls during this age number of physical and mental changes occurs in girls. To sensitise about these changes, the above program is conducted

AIM: To provide health and awareness

OBJECTIVES: To sensitise students about the adolescence health problems

THE CONTEXT: Our College is co educated hence the girls face gender sensitivity. In order to overcome this, **Health and Counselling cell** of our college conducted different types of programs. It include health counselling, medical check-up, meditation camp, reproductive health and seminar on nutrition.

PRACTICE: During the health education program all the students were issued a health card in which blood group, Haemoglobin and BMI were recorded by the Consulting doctors, During this program a team of teachers and visiting health counsellor addressed students on various health related and adolescent and Hygiene problems.

Evidence of Success: Girls students expressed satisfaction on this program. Rural students discussed many issues and shared experiences on this platform with counsellors.

Problems encountered and resources required: In-house Doctors are not recruited but the Govt.Hospital is just in front of our campus so that we can easily access during emergency.
